What Kind of Noun Is It?

Common Proper Singular Plural Possessive Collective Concrete Abstract

Each of the 30 cards in this set presents a sentence with an underlined word. Students are challenged to identify **two correct classifications** for the word from a set of four possible answers.

These cards are designed for use by 6th, 7th, and 8th graders as a review and new skills reinforcement. They are not appropriate for students just beginning to study nouns. Users must have a working knowledge of common and proper, singular and plural, possessive, collective, concrete and abstract. A reference page that briefly defines the 8 noun terms is included for student use at the teacher's discretion.

This set contains

- a cover card, which can double as a container label
- a student instruction card
- 30 task cards
- student answer sheets
- full answer keys

Preparation Instructions: The cards are formatted in color, but they also work well in grayscale.

- Cut card pages vertically at 5½" and individual cards horizontally at 4".
- Answer sheets are designed to be cut 5½" by 7¾".

Please keep in mind that different printers cause the cards to move around on the page slightly, so you might have to make some cutting adjustments.
