Back to School

Since we tend to prefer leaving the past behind and moving forward, our language should logically be saturated with *forward* words and phrases. But upon closer inspection, it's obvious that we have actually collected more *back* words. Perhaps this is because we often move forward by going back, as is the case with our long-standing tradition of going *back to school*.

Now that the inevitable has happened, why not get your thinking skills rolling forward by identifying the following collection of *back* words? Study the clues and then write the missing letters in the individual blanks to the left. Spelling counts!
